

LOCALISATION ENGINEER – INTERNSHIP

Are you a dynamic and enthusiastic graduate looking for an internship in central London?

If so, read on...

We are looking for highly motivated and ambitious interns who are interested in learning about translation and localisation, working from our offices on Oxford Street, London. Our internship program has been running for 5 years and we have been able to offer many of the best interns full time employment at the end of their 6 month internship.

If you are highly ambitious, motivated, out-going and have a professional qualification in Translation/Interpreting/Language Technologies, we want to hear from you!

You should only apply if you have a genuine interest in pursuing a career in this field and are available for a duration of 6 months.

Please send your application (CV & cover letter) to Ksenia Ivanova: Ksenia.Ivanova@CodexGlobal.net

Other	Codex runs a very successful internship program and we are proud to have been able to help the best interns into full time employment with us at the end of their internship. With this in mind, we only consider applicants who are in their final year of study and therefore potentially available for employment following their internship. We can support interns for the duration of the program by giving them relevant projects to work on as well as time to finalise their dissertations.
COMPETENCES, SKILLS and EXPERIENCE REQUIREMENTS	
Languages and level of competence required	<p>As part of the Localisation Engineering department you will be assisting the Head of Engineering in daily tasks and helping Project Managers to face all sort of technical difficulties. You will learn the insights of the job of a Localisation Engineer and will have the opportunity to learn many different tools and technical skills.</p> <p>A high level of English is required.</p>
Computer skills and level of skills required	<p>We are a high-tech business in a high-tech industry so applicants should be computer literate and have experience in the following:</p> <ul style="list-style-type: none"> • MS Office (e.g. Word, Excel, PowerPoint, Outlook) Intermediate – Advanced • CAT tools (e.g. SDL Trados, MemoQ, Multiterm etc.) Intermediate – Advanced • Eager to learn XML, HTML, RegExp, etc! <p>We use the latest TMS and CAT applications. Full training will be provided but applicants should feel confident in using and learning new technologies.</p>
Profile we are looking for	We are looking for a proactive candidate with a can-do attitude and interest in languages and area studies. Communication and team work are key in this role and is required on the daily basis. Pressure handling and problem solving skills as well as very good time management with prioritising workload should be at a high level so that you will be able to multitask.
Other	As our interns are required to interact with suppliers and all members for the team, it is essential that applicants have very strong interpersonal and communication skills. The position is perfect for out-going personalities who enjoy working in a dynamic team and thrive on building rapport with 3 rd parties.
